NIVAS PANDIYAN

FRONT-END DEVELOPER

Chennai, India 600011 | nivasinfy07@gmail.com | 6374137678

SUMMARY

Passionate Frontend Developer specializing in the MERN stack, with a keen eye for design and user experience. Skilled in creating responsive, interactive, and visually appealing web applications. A fast learner and problem-solver with a creative mindset, eager to grow and make impactful contributions in a collaborative tech environment.

SKILLS

- HTML And CSS
- Java Script
- React JS
- Rest Api
- Git And GitHub
- Material UI

PROJECTS

Weather App Clone

- Built a Responsive Weather App Clone using React.js and Tailwind CSS. Integrated real-time Weather API with Axios to fetch live weather data. Added search functionality to find weather details of any city worldwide. Designed a fully responsive UI with a clean, modern look. Features include dynamic data fetching, error handling, and a smooth user experience

My Portfolio

- Developed a Responsive Portfolio Website using React.js to showcase my projects and skills as a Full Stack Developer. Implemented a modern, clean design with smooth and engaging GSAP animations to enhance user interaction. Demonstrated strong skills in HTML, CSS, JavaScript, React.js, and responsive design techniques. The portfolio is fully optimized for mobile, tablet, and desktop devices, ensuring a seamless browsing experience.

EDUCATION

Bachelor Of Science - Physics   2017 Jun - 2020 Apr
The American College, Madurai

CERTIFICATION

MERN Stack Development   2024 Jul - 2025 Feb
JSpider-Software Training Institute , Bangalore
